

Castlebar Educate Together National School

Data Protection Policy

Introductory Statement

The school's Data Protection Policy applies to the personal data held by the school which is protected by the Data Protection Acts 1988 and 2003.

The policy applies to all school staff, the board of management, parents/guardians, students and others (including prospective or potential students and their parents/guardians and applicants for staff positions within the school) insofar as the measures under the policy relate to them. Data will be stored securely, so that confidential information is protected in compliance with relevant legislation. This policy sets out the manner in which personal data and sensitive personal data will be protected by the school.

Data Protection Principles

The school is a *data controller* of *personal data* relating to its past, present and future staff, students, parents/guardians and other members of the school community. As such, the school is obliged to comply with the principles of data protection set out in the Data Protection Acts 1988 and 2003 which can be summarised as follows:

- Obtain and process Personal Data fairly: Information on students is gathered with the help of parents/guardians and staff. Information is also transferred from their previous schools. In relation to information the school holds on other individuals (members of staff, individuals applying for positions within the School, parents/guardians of students etc.), the information is generally furnished by the individuals themselves with full and informed consent and compiled during the course of their employment or contact with the School. All such data is treated in accordance with the Data Protection Acts and the terms of this Data Protection Policy. The information will be obtained and processed fairly.
- Keep it only for one or more specified and explicit lawful purposes: The School will inform individuals of the reasons they collect their data and will inform individuals of the uses to which their data will be put. All information is kept with the best interest of the individual in mind at all times.
- Process it only in ways compatible with the purposes for which it was given initially: Data relating to individuals will only be processed in a manner consistent with the purposes for which it was gathered. Information will only be disclosed on a need to know basis, and access to it will be strictly controlled.
- Keep Personal Data safe and secure: Only those with a genuine reason for doing so may gain access to the information. Sensitive
 Personal Data is securely stored under lock and key in the case of manual records and protected with firewall software and password
 protection in the case of electronically stored data. Portable devices storing personal data (such as laptops) should be encrypted and
 password protected before they are removed from the school premises. Confidential information will be stored securely and in relevant
 circumstances, it will be placed in a separate file which can easily be removed if access to general records is granted to anyone not entitled
 to see the confidential data.
- Keep Personal Data accurate, complete and up-to-date: Students, parents/guardians, and/or staff should inform the school of any change which the school should make to their personal data and/or sensitive personal data to ensure that the individual's data is accurate, complete and up-to-date. Once informed, the school will make all necessary changes to the relevant records. The principal may delegate such updates/amendments to another member of staff. However, records must not be altered or destroyed without proper authorisation. If alteration/correction is required, then a note of the fact of such authorisation and the alteration(s) to be made to any original record/documentation should be dated and signed by the person making that change.
- Ensure that it is adequate, relevant and not excessive: Only the necessary amount of information required to provide an adequate service will be gathered and stored.
- Retain it no longer than is necessary for the specified purpose or purposes for which it was given: As a general rule, the information
 will be kept for the duration of the individual's time in the school. Thereafter, the school will comply with DES guidelines on the storage of
 Personal Data and Sensitive Personal Data relating to a student. In the case of members of staff, the school will comply with both DES

guidelines and the requirements of the Revenue Commissioners with regard to the retention of records relating to employees. The school may also retain the data relating to an individual for a longer length of time for the purposes of complying with relevant provisions of law and or/defending a claim under employment legislation and/or contract and/or civil law. (See Appendix 1: Records Retention Schedule)

• Provide a copy of their personal data to any individual, on request: Individuals have a right to know what personal data/sensitive personal data is held about them, by whom, and the purpose for which it is held.

Purpose of the Policy

The Data Protection Acts 1988 and 2003 apply to the keeping and processing of *Personal Data*, both in manual and electronic form. The purpose of this policy is to assist the school to meet its statutory obligations, to explain those obligations to School staff, and to inform staff, students and their parents/guardians how their data will be treated.

The policy applies to all school staff, the board of management, parents/guardians, students and others (including prospective or potential students and their parents/guardians, and applicants for staff positions within the school) insofar as the school handles or processes their *Personal Data* in the course of their dealings with the school.

Definition of Data Protection Terms

In order to properly understand the school's obligations, there are some key terms which should be understood by all relevant school staff:

Data means information in a form that can be processed. It includes both *automated data* (e.g. electronic data) and *manual data*. Automated *data* means any information on computer, or information recorded with the intention that it be processed by computer. Manual data means information that is kept/recorded as part of a relevant filing system or with the intention that it form part of a relevant filing system.

Relevant filing system means any set of information that, while not computerised, is structured by reference to individuals or by reference to criteria relating to individuals, so that specific information relating to a particular individual is readily, quickly and easily accessible.

Personal Data means data relating to a living individual who is or can be identified either from the data or from the data in conjunction with other information that is in, or is likely to come into, the possession of the Data Controller i.e. the school.

Sensitive Personal Data refers to Personal Data regarding a person's:

- racial or ethnic origin, political opinions or religious or philosophical beliefs
- membership of a trade union
- physical or mental health or condition or sexual life
- commission or alleged commission of any offence or
- any proceedings for an offence committed or alleged to have been committed by the person, the disposal of such proceedings or the sentence of any court in such proceedings, criminal convictions or the alleged commission of an offence.

Data Controller for the purpose of this policy is the board of management, Castlebar National School.

Rationale

In addition to its legal obligations under the broad remit of educational legislation, the school has a legal responsibility to comply with the Data Protection Acts, 1988 and 2003.

This policy explains what sort of data is collected, why it is collected, for how long it will be stored and with whom it will be shared. As more and more data is generated electronically and as technological advances enable the easy distribution and retention of this data, the challenge of meeting the school's legal responsibilities has increased.

The school takes its responsibilities under data protection law very seriously and wishes to put in place safe practices to safeguard individual's personal data. It is also recognised that recording factual information accurately and storing it safely facilitates an evaluation of the information, enabling the principal and board of management to make decisions in respect of the efficient running of the School. The efficient handling of data is also essential to ensure that there is consistency and continuity where there are changes of personnel within the school and board of management.

Other Legal Obligations

Implementation of this policy takes into account the school's other legal obligations and responsibilities. Some of these are directly relevant to data protection. *For example:*

- Under Section 9(g) of the Education Act, 1998, the parents of a student, or a student who has reached the age of 18 years, must be given access to records kept by the school relating to the progress of the student in their education
- Under Section 20 of the Education (Welfare) Act, 2000, the school must maintain a register of all students attending the School
- Under section 20(5) of the Education (Welfare) Act, 2000, a principal is obliged to notify certain information relating to the child's attendance in school and other matters relating to the child's educational progress to the principal of another school to which a student is transferring
- Under Section 21 of the Education (Welfare) Act, 2000, the school must record the attendance or non-attendance of students registered at the school on each school day
- Under Section 28 of the Education (Welfare) Act, 2000, the School may supply Personal Data kept by it to certain prescribed bodies (the Department of Education and Skills, the National Education Welfare Board, the National Council for Special Education, other schools, other centres of education) provided the School is satisfied that it will be used for a "relevant purpose" (which includes recording a person's educational history or monitoring their educational progress in order to ascertain how best they may be assisted in availing of educational opportunities or in developing their educational potential; or for carrying out research into examinations, participation in education and the general effectiveness of education or training)
- Under Section 14 of the Education for Persons with Special Educational Needs Act, 2004, the school is required to furnish to the National Council for Special Education (and its employees, which would include Special Educational Needs Organisers ("SENOs")) such information as the Council may from time to time reasonably request
- The Freedom of Information Act 1997 provides a qualified right to access to information held by public bodies which does not necessarily
 have to be "personal data" as with data protection legislation. While schools are not currently subject to freedom of information legislation, if
 a school has furnished information to a body covered by the Freedom of Information Act (such as the Department of Education and Skills,
 etc.) these records could be disclosed if a request is made to that body
- Under Section 26(4) of the Health Act, 1947 a School shall cause all reasonable facilities (including facilities for obtaining names and addresses of pupils attending the school) to be given to a health authority who has served a notice on it of medical inspection, e.g. a dental inspection
- Under Children First: National Guidance for the Protection and Welfare of Children (2011) published by the Department of Children & Youth Affairs, schools, their boards of management and their staff have responsibilities to report child abuse or neglect to TUSLA - Child and Family Agency (or in the event of an emergency and the unavailability of TUSLA, to An Garda Síochána).

Relationship to the Characteristic Spirit of the School

Castlebar Educate Together seeks to :

- enable each student to develop to their full potential
- provide a safe and secure environment for learning
- promote respect for the diversity of values, beliefs, traditions, languages and ways of life in society.

We aim to achieve these goals while respecting the privacy and data protection rights of students, staff, parents/guardians and others who interact with us. The school wishes to achieve these aims/missions while fully respecting individuals' rights to privacy and rights under the Data Protection Acts.

Personal Data

The Personal Data records held by the school may include:

A. Staff records:

- (a) **Categories of staff data**: As well as existing members of staff (and former members of staff), these records may also relate to applicants applying for positions within the school, trainee teachers and teachers under probation. These staff records may include:
 - Name, address and contact details, PPS number
 - Original records of application and appointment to promotion posts
 - Details of approved absences (career breaks, parental leave, study leave etc.)
 - Details of work record (qualifications, classes taught, subjects etc.)
 - Details of any accidents/injuries sustained on school property or in connection with the staff member carrying out their school duties
 - Records of any reports the school (or its employees) have made in respect of the staff member to State departments and/or other agencies under mandatory reporting legislation and/or child-safeguarding guidelines (subject to the DES Child Protection Procedures).
- (b) Purposes: Staff records are kept for the purposes of:
 - the management and administration of school business (now and in the future)
 - to facilitate the payment of staff, and calculate other benefits/ entitlements (including reckonable service for the purpose of calculation of pension payments, entitlements and/or redundancy payments where relevant)
 - to facilitate pension payments in the future
 - human resources management
 - recording promotions made (documentation relating to promotions applied for) and changes in responsibilities etc.
 - to enable the school to comply with its obligations as an employer including the preservation of a safe, efficient working and teaching environment (including complying with its responsibilities under the Safety, Health and Welfare At Work Act. 2005)
 - to enable the school to comply with requirements set down by the Department of Education and Skills, the Revenue Commissioners, the National Council for Special Education, TUSLA, the HSE, and any other governmental, statutory and/or regulatory departments and/or agencies
 - and for compliance with legislation relevant to the school.
- (c) Location: Staff records are stored in a secure, locked filing cabinet that only personnel who are authorised to use the data can access. Employees are required to maintain the confidentiality of any data to which they have access.
- (d) **Security:** Records are kept manually (in a personal file within a *relevant filing system*), in a secure, locked filing cabinet that only personnel who are authorised to use the data can access.

B. <u>Student records:</u>

(a) Categories of student data: These may include:

- Information which may be sought and recorded at enrolment and may be collated and compiled during the course of the student's time in the school. These records may include:
 - name, address and contact details, PPS number
 - date and place of birth
 - names and addresses of parents/guardians and their contact details (including any special arrangements with regard to guardianship, custody or access)
 - religious belief
 - racial or ethnic origin
 - membership of the Traveller community, where relevant
 - whether they (or their parents) are medical card holders
 - whether English is the student's first language and/or whether the student requires English language support
 - any relevant special conditions (e.g. special educational needs, health issues etc.) which may apply
- Information on previous academic record (including reports, references, assessments and other records from any previous school(s) attended by the student
- Psychological, psychiatric and/or medical assessments
- Attendance records
- Photographs and recorded images of students (including at school events and noting achievements).
- Academic record Standardised test results as recorded on official School reports
- Records of significant achievements

- Whether the student is repeating a class level
- Whether the student is exempt from studying Irish
- Records of disciplinary issues/investigations and/or sanctions imposed
- Other records e.g. records of any serious injuries/accidents etc. (Note: it is advisable to inform parents that a particular incident is being recorded).
- Records of any reports the school (or its employees) have made in respect of the student to State departments and/or other agencies under mandatory reporting legislation and/or child safeguarding guidelines (subject to the DES Child Protection Procedures).
- (b) **Purposes**: The purposes for keeping student records are:
 - to enable each student to develop to their full potential
 - to comply with legislative or administrative requirements
 - to ensure that eligible students can benefit from the relevant additional teaching or financial supports
 - to support the provision of religious instruction
 - to enable parents/guardians to be contacted in the case of emergency or in the case of school closure, or to inform parents of their child's educational progress or to inform parents of school events etc.
 - to meet the educational, social, physical and emotional requirements of the student
 - photographs and recorded images of students are taken to celebrate school achievements, compile yearbooks, establish a
 school website, record school events, and to keep a record of the history of the school. Such records are taken and used in
 accordance with the school's "Guidance for Taking and Using Images of Pupils in Schools" (see template)
 - to ensure that the student meets the school's admission criteria
 - to ensure that students meet the minimum age requirements for their course,
 - to ensure that any student seeking an exemption from Irish meets the criteria in order to obtain such an exemption from the authorities
 - to furnish documentation/ information about the student to the Department of Education and Skills, the National Council for Special Education, TUSLA, and other Schools etc. in compliance with law and directions issued by government departments
- (c) **Location**: In a secure, locked filing cabinet that only personnel who are authorised to use the data can access and online on a password protected database run by the DES. Employees are required to maintain the confidentiality of any data to which they have access.
- (d) Security: Records are kept manually (in a personal file within a relevant filing system), in a secure, locked filing cabinet that only personnel who are authorised to use the data can access. Pupil data is also stored on the DES Primary online database (POD) and on the Aladdin portal. Access to this data base is through a password protected network.

C. Board of Management records:

- (a) **Categories of** board of management data: These may include:
 - Name, address and contact details of each member of the board of management (including former members of the board of management)
 - Records in relation to appointments to the Board
 - Minutes of Board of Management meetings and correspondence to the Board which may include references to particular individuals.
- (b) **Purposes:** To enable the Board of Management to operate in accordance with the Education Act 1998 and other applicable legislation and to maintain a record of board appointments and decisions.
- (c) Location: In a secure, locked filing cabinet and that only personnel who are authorised to use the data can access it. Employees are required to maintain the confidentiality of any data to which they have access.
- (d) Security: Records are kept manually in a BOM file within a *relevant filing system*. A password protected computer record is also kept of minutes of the BOM meetings.

D. Other records:

The school will hold other records relating to individuals. The format in which these records will be kept are manual record (personal file within a relevant filing system), and/or computer record (database). Some examples of the type of other records which the school will hold are set out below (this list is not exhaustive):

Creditors

- (a) **Categories of data**: the school may hold some or all of the following information about creditors (some of whom are self-employed individuals):
 - name
 - address
 - contact details
 - PPS number
 - tax details
 - bank details and
 - amount paid.
- (b) **Purposes**: This information is required for routine management and administration of the school's financial affairs, including the payment of invoices, the compiling of annual financial accounts and complying with audits and investigations by the Revenue Commissioners.
- (c) Location: In a secure, locked filing cabinet that only personnel who are authorised to use the data can access. Employees are required to maintain the confidentiality of any data to which they have access.
- (d) Security: Records are kept manually (in a personal file within a *relevant filing system*), in a secure, locked filing cabinet that only personnel who are authorised to use the data can access.

CCTV images/recordings

- (a) **Categories**: CCTV is installed in some schools, externally i.e. perimeter walls/fencing and internally as detailed in the CCTV Policy. These CCTV systems may record images of staff, students and members of the public who visit the premises.
- (b) **Purposes**: Safety and security of staff, students and visitors and to safeguard school property and equipment.
- (c) Location: Cameras are located externally as detailed in the CCTV Policy. Recording equipment is located in the store room located off the office.
- (d) Security: Access to images/recordings is restricted to the principal & deputy principal. Recordings are retained for 28 days, except if required for the investigation of an incident. Images/recordings may be viewed or made available to An Garda Síochána pursuant to section 8 Data Protection Acts 1988 and 2003.

Test results

- (a) **Categories**: The school will hold data comprising test results in respect of its students. These include infant screening tests, standardised test results and the results of diagnostic assessments.
- (b) Purposes: The main purpose for which these results and other records are held is to monitor a student's progress and to provide a sound basis for advising them and their parents or guardians about their progress. The data may also be aggregated for statistical/reporting purposes, such as to compile results for School Self Evaluation. The data may be transferred to the Department of Education and Skills, the National Council for Curriculum and Assessment and such other similar bodies.

Location: In a secure, locked filing cabinet that only personnel who are authorised to use the data can access. Employees are required to maintain the confidentiality of any data to which they have access.

(c) Security: Records are kept manually in a BOM file within a *relevant filing system*. A password protected database is also kept comprising of annual standardised test results.

Links to other policies and curriculum delivery

Our school policies need to be consistent with one another, within the framework of the overall School Plan. Relevant school policies already in place or being developed or reviewed, shall be examined with reference to the data protection policy and any implications which it has for them shall be addressed.

The following policies may be among those considered:

- Child Protection Policy
- Anti-Bullying Policy
- Code of Good Behaviour
- Mobile Phone Policy
- Enrolment Policy
- CCTV Policy
- Substance Use Policy
- ICT Acceptable Usage Policy
- SPHE Policy

Processing in line with data subject's rights

Data in this school will be processed in line with the data subjects' rights.

Data subjects have a right to:

- (a) Request access to any data held about them by a data controller
- (b) Prevent the processing of their data for direct-marketing purposes
- (c) Ask to have inaccurate data amended
- (d) Prevent processing that is likely to cause damage or distress to themselves or anyone else.

Dealing with a data access request

Section 3 access request

Under Section 3 of the Data Protection Acts, an individual has the right to be informed whether the school holds data/information about them and to be given a description of the data together with details of the purposes for which their data is being kept. The individual must make this request in writing and the data controller will accede to the request within 21 days.

The right under Section 3 must be distinguished from the much broader right contained in Section 4, where individuals are entitled to a copy of their data.

Section 4 access request

Individuals are entitled to a copy of their personal data on written request.

- The individual is entitled to a copy of their personal data (subject to some exemptions and prohibitions set down in Section 5 of the Data Protection Act)
- Request must be responded to within 40 days
- Fee may apply but cannot exceed €6.35
- Where a subsequent or similar request is made soon after a request has just been dealt with, it is at the discretion of the school as data controller to comply with the second request (no time limit but reasonable interval from the date of compliance with the last access request.) This will be determined on a case-by-case basis.
- No personal data can be supplied relating to another individual unless that third party has consented to the disclosure of their data to the applicant. Data will be carefully redacted to omit references to any other individual and only where it has not been possible to redact the data to ensure that the third party is not identifiable would the school refuse to furnish the data to the applicant.

Providing Information over the Phone

In our school, any employee dealing with telephone enquiries should be careful about disclosing any personal information held by the school over the phone. In particular the employee should:

- Check the identity of the caller to ensure that information is only given to a person who is entitled to that information
- Suggest that the caller put their request in writing if the employee is not sure about the identity of the caller and in circumstances
 where the identity of the caller cannot be verified
- Refer the request to the principal for assistance in difficult situations. No employee should feel forced into disclosing personal information.

Implementation Arrangements, Roles and Responsibilities

In our school the board of management is the data controller and the principal will be assigned the role of co-ordinating implementation of this Data Protection Policy and for ensuring that staff who handle or have access to Personal Data are familiar with their data protection responsibilities.

The following personnel have responsibility for implementing the Data Protection Policy:

Name	Responsibility
Board of management:	Data Controller
Principal:	Implementation of Policy
Teaching personnel:	Awareness of responsibilities
Administrative personnel:	Security, confidentiality
IT personnel:	Security, encryption, confidentiality

Ratification and Communication

This data protection policy was ratified by the BOM in October 2016. It was then circulated to all parents/guardians. All staff members are familiar with the Data Protection Policy and ready to put it into practice in accordance with the specified implementation arrangements. This policy will be read through at the first staff meeting of each school year to remind staff members of their roles in relation to data protection. All concerned will be made aware of any changes implied in recording information on students, staff and others in the school community.

Parents/guardians and students will be informed of the Data Protection Policy from the time of enrolment of the student e.g. by including the Data Protection Policy on the school website.

Monitoring the Implementation of the Policy

The implementation of the policy shall be monitored by the principal and a sub-committee of the board of management. At least one annual report will be issued to the board of management to confirm that the actions/measures set down under the policy are being implemented.

Review and Evaluation of the Policy

The policy will be reviewed and evaluated annually. On-going review and evaluation should take cognisance of changing information or guidelines (e.g. from the Data Protection Commissioner, Department of Education and Skills or the NEWB), legislation and feedback from parents/guardians, students, school staff and others. The policy will be revised as necessary in the light of such review and evaluation and within the framework of school planning.

This policy adopted by Board of Management on

Signed:

Jarlath Munnelly (School Manager)

Signed:

Sarah Calvey (Principal)

Guidelines for taking and using images of pupils in schools

Contexts and purpose of images

Source: Arts Council Guidelines for taking and using images of children and young people in the arts sector.

Photographs and video images can be made in a variety of contexts and settings - public, private, and semi-private - and for a range of purposes which might include:

Documenting and recording or illustrating work processes and events.

- Artistic work created by pupils individually or collectively.
- Reporting to specific interest group such as evaluators, funding agencies, sponsors and/or the general public.
- Promotional work.

What is considered good practice when schools take photos of their students?

- Recorded images should only be made, kept, and used where there is a valid reason for doing this.
- Recording of images should be adequately supervised as would any other activity.
- Pupils and their parent/guardian should be informed in advance if and when images will be taken, and their written consent should be sought for image retention and use. The school must spell this out very clearly so that the parent/guardian understands what processing will be involved. This process is known as 'informed consent'.
- Pupils and their parent/guardian should be informed as to how and where images will be used.
- Images should only be used for the purpose(s) agreed.
- Images should only be used in the intended context and should not be used out of context.
- In general, individual pupils should not be identified, with the exception being where they are being publicly acknowledged (e.g., an award, performance, achievement) for which informed consent has been given in writing by a parent/guardian.
- For publicity purposes, group photographs are preferable to individual ones. Where the "publicity purpose" includes a school website, prospectus, brochure, yearbook, newsletter etc, schools must be aware that parental/guardian consent can be withdrawn at any time for the use of their child's images, so it must be possible for the school to take down/delete the relevant images if the parental/guardian consent is withdrawn.
- Ensure all pupils are appropriately dressed.
- Ensure that images do not contribute to or expose children to embarrassment, distress or upset.
- Use images that represent the diversity of pupils participating in any given activity or setting.
- Do not use images of pupils who are considered vulnerable or whose identity may require protection.
- Permission to take and use images of pupils can be requested as part of the school enrolment process. However schools should note that a parent/guardian has the right to withdraw this consent at any time.
- Refusal of consent should not in any way limit pupil's participation in school activities.
- Where images are kept for future use, relevant names, dates and other contextual information should be stored with them as well as copies of the signed consent for their usage.
- Images should be carefully and securely stored in accordance security and storage and with the consent attached or cross referenced.
- Images should only be passed to third parties for their use where this has been explicitly agreed in writing as part of the consent process. A parent/guardian should have to "opt-in" to elect to have their child's images transferred to third parties (rather than to "optout").

What is 'informed consent'?

Informed consent is a process whereby participants are informed and asked for their permission or agreement prior to taking photographs or recording images. Individuals should be informed of:

- the purpose(s) the image will be used for, and
- the people/bodies to whom it might be transferred.

The individual should be asked for their prior written consent. Where images may be used for a variety of purposes (e.g., documenting, promoting or celebrating through press overage, websites, prospectuses etc.), consent for each purpose and/or in a variety of settings (e.g., reports, public media, or websites) should be obtained on an "opt-in" basis. **For example:**

We would like to take photos/digital images of your child and use them for the following purposes. Do you give your consent as parent/guardian for us to do each of the following:

Tick box if "yes" you agreewith these uses

Use on our school website?

Use in our school brochure and yearbook? \square

Use in our yearly school report? \Box

Retain in our school archives? \Box

We would also like to transfer photos//digital images of your child to the local newspaper, [insert name of local newspaper] for use in a piece celebrating the [insert school event, e.g. opening of new school building]. Do you give your consent for us to transfer these images to [name of newspaper] for these purposes?

Tick box if "yes" you permit this transfer

Yes, I give my consent Signed: _____

Parent/Guardian or Student (where over 18 years)

As a 'child' is anyone under the age of 18 years, consent of a parent/guardian is required. For further information and guidance, see <u>Age of</u> <u>Consent for Processing</u>.

In addition, the individual should be given any other information required to ensure fairness and transparency. For example, individuals should be informed if the image will be passed on or made available to a third party, used for school promotional purposes or displayed on the school website. This should be clearly explained as part of the process of informed consent, and their consent should be obtained (preferably on an "opt-in" basis) for each of these intended uses. If this is not done, or if consent is refused, then images should not be passed on to third parties or put to any use not agreed. Informed consent includes being given the opportunity to withdraw consent which had been previously given, if desired. Their right to withdraw any consent previously given must be free of charge, and not result in the data subject suffering any detriment. It is recommended that schools seek consent at the time of enrolment to cover the period that the pupil will spend at the school. A copy of the school's Data Protection Policy should also be given to the student's parent/guardian on the enrolment of their child to the school, and the enrolment form should ask for the parent/guardian to sign their consent to their child's data (and their data) being processed in accordance with that Data Protection Policy for the duration of their child's time in the school. The enrolment form should also incorporate a consent form for contacting the parents/guardian, and also for the taking and use of the student's photos during the child's time at the school. Parents/guardians should be advised to inform the school if circumstances change and they no longer wish their child's image to be taken and retained.

Images taken by pupils

It should be noted that Data Protection law does not apply to personal data kept by an individual for personal or family affairs, or for recreational purposes. Accordingly, photos and video clips taken by students of other students will not come within the Data Protection Acts. However, schools understand that as part maintaining a nurturing school environment which is respectful and safe, they have a role to play in ensuring that students develop a respectful and appropriate attitude to the internet, social media, and their mobile devices. In circumstances where children or young people take photographs or video clips of other pupils, and other individuals, for their own use, similar ground rules should be agreed in partnership with parents/guardians.

- Images should only be taken with the knowledge and consent of participants.
- No images should be taken which could give rise to embarrassment or distress.

To this end it is advisable to set a clear policy for the use of mobile phones in school. as most now Schools are advised to put in place a Mobile Phone Policy and ensure that this dovetails with the school's Code of Behaviour.

Copyright

Ownership of copyright rests with the artist/photographer (or their employer). Images are not owned by the individual(s) whose image is recorded. Permission to use images owned by a photographer or agency is by prior agreement with the copyright holder.

Publishing images of pupils on websites

Schools need to develop a policy about the use of images of children on their websites. The internet is a public, accessible and largely unregulated media. Decisions to post information, including images, on websites should take account of this. Photographs set in a particular context (e.g., a school event) in an identified location (i.e. the school) reveal a substantial amount of information through which children may be identified. For example, images accompanied by personal information - (name) is a pupil of (school) and recently took part in xxx) - could be used by an individual to learn more about a child or young person, and used to form a relationship with them or engage in a process of 'grooming' them for abuse. A school needs to make decisions about the type of images that represent the school and its activities appropriately,

and to ensure parents/guardians support the policy. The informed, explicit written consent of each parent/guardian should be obtained before their child's photo is uploaded to the school website.

Parents/guardians and students aged over 18 years have the right to insist that the school takes down any photo(s) containing an image of them or their child at any time, and this right must be fully respected. Where such a request is made by a parent/guardian or by a student aged over 18 years, every effort should be made to take the photo(s) down as soon as possible.

In general, when assessing risk, the most important factor is the potential of inappropriate use of the images. Schools should take the following steps to reduce the potential for misuse:

- Avoid using pupils' names (first name or surname) in photograph captions.
- Ensure that the school has written parental/guardian permission to use an image of their child where the child is under 18 years. For further information and guidance, see Age of Consent for Processing.
- Only use images of pupils in suitable dress to reduce the risk of inappropriate use.
- Certain activities present a much greater risk of potential misuse. It is preferable to use images that depict an activity or group context, rather than a particular pupil.
- Consider the age of pupils when deciding what is appropriate.
- Develop a procedure for reporting the use of inappropriate content or images to help reduce the risks to children and young people. (See:Office of Internet Safety <u>www.internetsafety.ie</u>).

Other People Taking Photos of Children at School Events

Schools are often asked whether parents can take photographs or make video recordings of school events e.g. nativity plays, musicals, and other school events. Parents are there at the invitation of the school, and it is up to the school to decide if it wishes to allow videos or photographs to be taken by parents during the event. However, schools should understand that taking photos or videos for purely personal, family, or recreational purposes does not come under the Data Protection Acts. Accordingly, the Data Protection Acts do not apply. However, individuals have a Constitutional unremunerated right to privacy, therefore it would be prudent to state at the beginning of the school event (or in promotional material advertising the school event such as a school newsletter telling parents about the nativity play) that parents/guardians are permitted to take photographs or videos for private, personal use only, and that they must not be uploaded to any website to be viewed by others (e.g. Facebook).

Where the student is under 18 years, the student's parent/guardian must be asked to give consent for school to process images of that child for the schools promotional use, e.g. publicising an event, sending photos to the press, putting photos on the school website, transmitting photos over the internet to the press, and use in school newsletters/brochures. For further information and guidance in relation to who gives consent, see <u>Age of Consent for Processing</u>. Where the student is over 18 years (and that student is not suffering under a mental disability or medical condition which may impair their capacity to give their consent) only the student's consent need be obtained for this processing. This may be done at the time of enrolment via the enrolment form data protection statement or for each event as the school deems necessary. Parents/guardians have the right to insist that the school takes down or removes any photo(s) containing an image of their child at any time, and this right must be fully respected. Where such a request is made by a parent/guardian or by a student (aged 18 years or older), every effort should be made to take the photo(s) down/remove the photo as soon as possible.

Records Retention Schedule

Schools as *data controllers* must be clear about the length of time for which personal data will be kept and the reasons why the information is being retained. In determining appropriate retention periods, regard must be had for any statutory obligations imposed on a data controller. If the purpose for which the information was obtained has ceased and the personal information is no longer required, the data must be deleted or disposed of in a secure manner. It may also be anonymised to remove any personal data. Anonymisation must be irrevocable; removing names and addresses may not necessarily be sufficient.

In order to comply with this legal requirement, Castlebar ETNS has assigned specific responsibility and introduced procedures for ensuring that files are purged regularly and securely and that personal data is not retained any longer than is necessary. All records will be periodically reviewed in light of experience and any legal or other relevant indications.

IMPORTANT: In all cases, schools should be aware that where proceedings have been initiated, are in progress, or are reasonably foreseeable (although have not yet been taken against the school/board of management/an officer or employee of the school (which may include a volunteer)), all records relating to the individuals and incidents concerned should be preserved and should under no circumstances be deleted, destroyed or purged. The records may be of great assistance to the school in defending claims made in later years.

WARNING: In general, the limitation period does not begin to run until the person concerned acquires knowledge of the facts giving rise to the claim and the Statue of Limitations may be different in every case. In all cases where reference is made to "18 years" being the date upon which the relevant period set out in the Statute of Limitations commences for the purposes of litigation, the school must be aware that in some situations (such as the case of a student with special educational needs, or where the claim relates to child sexual abuse, or where the student has not become aware of the damage which they have suffered, and in some other circumstances), the Statute of Limitations **may not begin to run when the student reaches 18 years of age and specific legal advice should be sought by schools on a case-by-case basis.** In all cases where retention periods have been recommended with reference to the relevant statutory period in which an individual can make a claim, these time-frames may not apply where there has been misrepresentation, deception or fraud on the part of the respondent/defendant. In such a circumstance, the school should be aware that the claim could arise many years after the incident complained of and the courts/tribunals/employment fora may not consider the complainant to be "out of time" to make their claim.

Personal Data Security Breach Code of Practice Form

Purpose of Code of Practice

This Code of Practice applies to Castlebar ETNS as data controller.

- This Code of Practice will be:
- 1. available to view in the school office
- 2. circulated to all staff members

Obligations under Data Protection

The school as data controller is subject to the provisions of the Data Protection Acts, 1988 and 2003 and exercise due care and attention in collecting, processing and storing personal data and sensitive personal data provided by data subjects for defined use.

The school has prepared a **Data Protection Policy** and monitors the implementation of this policy at regular intervals. The school retains records (both electronic and manual) concerning personal data in line with its **Data Protection Policy** and seeks to prioritise the safety of personal data and particularly sensitive personal data, so that any risk of unauthorized disclosure, loss or alteration of personal data is avoided.

Protocol for action in the event of breach

In circumstances where an incident gives rise to a risk of unauthorised disclosure, loss, destruction or alteration of personal data, in manual or electronic form, Castlebar ETNS will follow the following protocol:

- The school will seek to contain the matter and mitigate any further exposure of the personal data held. Depending on the
 nature of the threat to the personal data, this may involve a quarantine of some or all PCs, networks etc. and requesting that
 staff do not access PCs, networks etc. Similarly, it may involve a quarantine of manual records storage area/s and other areas
 as may be appropriate. By way of a preliminary step, an audit of the records held or backup server/s should be undertaken to
 ascertain the nature of what personal data may potentially have been exposed.
- 2. Where data has been "damaged" (as defined in the Criminal Justice Act 1991, e.g. as a result of hacking), the matter must be reported to An Garda Síochána. Failure to do so will constitute a criminal offence in itself ("withholding information") pursuant to section 19 Criminal Justice Act, 2011. The penalties for withholding information include a fine of up to €5,000 or 12 months' imprisonment on summary conviction.
- 3. Where the data concerned is protected by technological measures such as to make it unintelligible to any person who is not authorised to access it, the school may conclude that there is no risk to the data and therefore no need to inform data subjects or contact the Office of the Data Protection Commissioner. Such a conclusion would only be justified where the technological measures (such as encryption) were of a high standard.
- 4. Depending on the nature of the personal data at risk and particularly where sensitive personal data may be at risk, the assistance of An Garda Síochána should be immediately sought. This is separate from the statutory obligation to report criminal damage to data arising under section 19 Criminal Justice Act 2011 as discussed at (2) above.

- 5. Contact should be immediately made with the data processor responsible for IT support in the school.
- 6. In addition and where appropriate, contact may be made with other bodies such as the HSE, financial institutions etc.
- 7. Reporting of incidents to the Office of Data Protection Commissioner: All incidents in which personal data (and sensitive personal data) has been put at risk shall be reported to the Office of the Data Protection Commissioner as soon as the school becomes aware of the incident (or within 2 working days thereafter), save in the following circumstances:
 - When the full extent and consequences of the incident have been reported without delay directly to the affected data subject(s) <u>and</u>
 - The suspected breach affects no more than 100 data subjects and
 - It does not include sensitive personal data or personal data of a financial nature[1].

Where all three criteria are not satisfied, the school shall report the incident to the Office of the Data Protection Commissioner within two working days of becoming aware of the incident, outlining the circumstances surrounding the incident (see further details below). Where no notification is made to the Office of the Data Protection Commissioner, the school shall keep a summary record of the incident which has given rise to a risk of unauthorised disclosure, loss, destruction or alteration of personal data. The record shall comprise a brief description of the nature of the incident and an explanation why the school did not consider it necessary to inform the Office of the Data Protection Commissioner. Such records shall be provided to the Office of the Data Protection Commissioner.

- 8. The school shall gather a small team of persons together to assess the potential exposure/loss. This team will assist the principal of the school with the practical matters associated with this protocol.
- 9. The team will, under the direction of the BOM/principal, give immediate consideration to informing those affected [2]. At the direction of the BOM/principal the team shall:
 - Contact the individuals concerned (whether by phone/email etc.) to advise that an unauthorised disclosure/loss/destruction or alteration of the individual's personal data has occurred.
 - Where possible and as soon as is feasible, the *data subjects* (i.e. individuals whom the data is about) should be advised of
 - > the nature of the data that has been potentially exposed/compromised;
 - ≻ the level of sensitivity of this data and
 - > an outline of the steps the school intends to take by way of containment or remediation.
 - Individuals should be advised as to whether the school intends to contact other organisations and/or the Office of the Data Protection Commissioner.

^[1/2] Except where law enforcement agencies have requested a delay for investigative purposes. Even in such circumstances consideration should be given to informing affected data subjects as soon as the progress of the investigation allows. Where Castlebar ETNS receives such a direction from law enforcement agencies, they should make careful notes of the advice they receive (including the date and the time of the conversation and the name and rank of the person to whom they spoke). Where possible, Castlebar ETNS should ask for the directions to be given to them in writing on letter-headed notepaper from the law enforcement agency (eg. An Garda Siochána), or where this is not possible, Castlebar ETNS should write to the relevant law enforcement agency to the effect that "we note your instructions given to us by your officer [insert officer's name] on XX day of XX at XXpm that we were to delay for a period of XXX/until further notified by you that we are permitted to inform those affected by the data breach."

given to them in writing on letter-headed notepaper from the law enforcement agency (eg. An Garda Siochána), or where this is not possible, Castlebar ETNS should write to the relevant law enforcement agency to the effect that "we note your instructions given to us by your officer [insert officer's name] on XX day of XX at XXpm that we were to delay for a period of XXX/until further notified by you that we are permitted to inform those affected by the data breach."

- Where individuals express a particular concern with respect to the threat to their personal data, this should be advised back to the principal who may, advise the relevant authority e.g. Gardaí, HSE etc.
- Where the data breach has caused the data to be "damaged" (e.g. as a result of hacking), the principal shall contact An Garda Síochána and make a report pursuant to section 19 Criminal Justice Act 2011.
- The principal shall notify the insurance company which the school is insured and advise them that there has been a
 personal data security breach.
- 10. A full review should be undertaken using the template <u>Compliance Checklist</u> (<u>www.dataprotectionforschools.ie/en/Data-Protection-Guidelines/Compliance-Audit/</u>) and having regard to information ascertained deriving from the experience of the data protection breach. Staff should be apprised of any changes to the Personal Data Security Breach Code of Practice and of upgraded security measures. Staff should receive refresher training where necessary.

Further advice:

What may happen arising from a report to the Office of Data Protection Commissioner?

- Where any doubt may arise as to the adequacy of technological risk-mitigation measures (including encryption), the school shall report the incident to the Office of the Data Protection Commissioner within two working days of becoming aware of the incident, outlining the circumstances surrounding the incident. This initial contact will be by email, telephone or fax and shall not involve the communication of personal data.
- The Office of the Data Protection Commissioner will advise the school of whether there is a need for the school to compile a detailed report and/or for the Office of the Data Protection Commissioner to carry out a subsequent investigation, based on the nature of the incident and the presence or otherwise of appropriate physical or technological security measures to protect the data.
- Should the Office of the Data Protection Commissioner request the school to provide a detailed written report into the incident, the Office of the Data Protection Commissioner will specify a timeframe for the delivery of the report into the incident and the information required. Such a report should reflect careful consideration of the following elements:
 - > the amount and nature of the personal data that has been compromised
 - > the action being taken to secure and/or recover the personal data that has been compromised
 - > the action being taken to inform those affected by the incident or reasons for the decision not to do so
 - > the action being taken to limit damage or distress to those affected by the incident
 - > a chronology of the events leading up to the loss of control of the personal data; and
 - > the measures being taken to prevent repetition of the incident.

Depending on the nature of the incident, the Office of the Data Protection Commissioner may investigate the circumstances surrounding the personal data security breach. Investigations may include on-site examination of systems and procedures and could lead to a recommendation to inform data subjects about a security breach incident where the school has not already done so. If necessary, the Commissioner may use his enforcement powers to compel appropriate action to protect the interests of data subjects.

Personal data Rectification/Erasure Request Form

Request to have Personal Data rectified or erased.

Data Protection Act 1988 and Data Protection (Amendment) Act 2003

Important:

Proof of identity (eg. official/State photographic identity document-drivers licence, passport) must accompany this form.

Full Name	
Address	
Contact number *	Email addresses *

* The school may need to contact you to discuss your access request

Please tick the box which applies to you:

Student □	Parent/guardian of student □	Former Student	Current Staff □	Former Staff □
Age:	Name of Student:	Insert Year of		Insert Years
Age.		leaving:		From/To:
Class:		-		

I,[insert name] wish to have the data detailed below which Castlebar ETNS holds about me/my child rectified / erased (*delete as appropriate*). I am making this access request under **Section 6** of the Data Protection Acts.

Details of the information you believe to be inaccurate and rectification required OR reason why you wish to have data erased:

You must attach relevant documents as proof of correct information e.g. where a date of birth is incorrect, please provide us with a copy of the official State Birth Certificate. Please note that your right to request rectification/deletion is not absolute and may be declined by <Name of school/ETB> in certain cases. You have the right to complain this refusal to the Office of the Data Protection Commissioner: see www.dataprotection.ie .

Signed	 Date	
- 5		

Checklist: Have you:

1)	Completed the Access Request Form in full?	
----	--	--

2) In	cluded o	document/s	as	proof	of	correct	inform	ation?
-------	----------	------------	----	-------	----	---------	--------	--------

3) Signed and dated the Request Form?

4) Included a photocopy of official/State photographic identity document*

*Note to school: The school should satisfy itself as to the identity of the individual, and make a note in the school records that identity has been provided but the school should not retain a copy of the identity document.

Please address and return this form to:	
Chairperson of the Board of Management, Castlebar Educate Together National School, Castlebar, Co. Mayo.	

CCTV Policy

Introductory Statement

Closed Circuit Television Systems (CCTVS) are installed in Castlebar Educate Together National School.

New CCTV systems will be introduced in consultation with staff, the board of management and the parents association. Where systems are already in operation, their operation will be reviewed regularly in consultation with staff, the board of management and the parents association.

1. <u>Purpose of the Policy</u>

The purpose of this policy is to regulate the use of Closed Circuit Television and its associated technology in the monitoring of both the internal and external environs of the premises under the remit of Castlebar National School.

CCTV systems are installed both internally and externally for the purpose of enhancing security of the building and its associated equipment as well as creating a mindfulness among the occupants, at any one time, that a surveillance security system is in operation within and/or in the external environs of the premises during both the daylight and night hours each day. CCTV surveillance at the school is intended for the purposes of:

- protecting the school buildings and school assets, both during and after school hours;
- promoting the health and safety of staff, pupils and visitors;
- preventing bullying;
- reducing the incidence of crime and anti-social behaviour (including theft and vandalism);
- supporting the Gardaí in a bid to deter and detect crime;
- assisting in identifying, apprehending and prosecuting offenders; and
- ensuring that the school rules are respected so that the school can be properly managed.

2. <u>Scope</u>

This policy relates directly to the location and use of CCTV and the monitoring, recording and subsequent use of such recorded material.

3. <u>General Principles</u>

The BOM of Castlebar Educate Together National School as the corporate body has a statutory responsibility for the protection of its property, equipment and other plant as well providing a sense of security to its employees, students and invitees to its premises. Castlebar ETNS owes a duty of care under the provisions of Safety, Health and Welfare at Work Act 2005 and associated legislation and utilises CCTV systems and their associated monitoring and recording equipment as an added mode of security and surveillance for the purpose of enhancing the quality of life of the school community by integrating the best practices governing the public and private surveillance of its premises. The use of the CCTV system will be conducted in a professional, ethical and legal manner and any diversion of the use of CCTV security technologies for other purposes is prohibited by this policy e.g. CCTV will not be used for monitoring employee performance.

Information obtained through the CCTV system may only be released when authorised by the Principal, following consultation with the Chairperson of the Board of Management. Any requests for CCTV recordings/images from An Garda Síochána will be fully recorded and legal advice will be sought if any such request is made. (See "Access" below). If a law enforcement authority, such as An Garda Síochána, is seeking a recording for a specific investigation, An Garda Síochána may require a warrant and accordingly any such request made by An Garda Síochána should be requested in writing and the school will immediately seek legal advice.

CCTV monitoring of public areas for security purposes will be conducted in a manner consistent with all existing policies adopted by the school, including the provisions set down in equality and other educational and related legislation.

This policy prohibits monitoring based on the characteristics and classifications contained in equality and other related legislation e.g. race, gender, sexual orientation, national origin, disability etc.

Information obtained in violation of this policy may not be used in a disciplinary proceeding against an employee of the school or a student attending the school.

All CCTV systems and associated equipment will be required to be compliant with this policy following its adoption by the BOM of Castlebar ETNS. Recognisable images captured by CCTV systems are "personal data." They are therefore subject to the provisions of the Data Protection Acts 1988 and 2003. (See: Data Protection Policy)

4. Justification for use of CCTV

Section 2(1)(c)(iii) of the Data Protection Acts requires that data is "adequate, relevant and not excessive" for the purpose for which it is collected. This means that Castlebar NS needs to be able to justify the obtaining and use of personal data by means of a CCTV system. The use of CCTV to control the perimeter of the school buildings for security purposes has been deemed to be justified by the board of

26

management. The system is intended to capture images of intruders or of individuals damaging property or removing goods without authorisation.

CCTV systems will not be used to monitor normal teacher/student classroom activity in school.

5. Location of Cameras

The location of cameras is a key consideration. Use of CCTV to monitor areas where individuals would have a reasonable expectation of privacy would be difficult to justify. Castlebar ETNS has endeavoured to select locations for the installation of CCTV cameras which are least intrusive to protect the privacy of individuals. Cameras placed so as to record external areas are positioned in such a way as to prevent or minimise recording of passers-by or of another person's private property.

CCTV Video Monitoring and Recording of Public Areas in Castlebar ETNS may include the following:

- Protection of school buildings and property: The building's perimeter, entrance and exit and entrance lobby
- Monitoring of Access Control Systems: Monitor and record restricted access areas at entrances to buildings and other areas
- Verification of Security Alarms: Intrusion alarms, exit door controls, external alarms
- Video Patrol of Public Areas: Parking areas, Main entrance/exit gates
- Criminal Investigations (carried out by An Garda Síochána): Robbery, burglary and theft surveillance

6. <u>Covert Surveillance</u>

Castlebar ETNS will not engage in covert surveillance.

Where An Garda Síochána requests to carry out covert surveillance on school premises, such covert surveillance may require the consent of a judge. Accordingly, any such request made by An Garda Síochána will be requested in writing and the school will seek legal advice.

7. Notification-Signage

The Principal will provide a copy of this CCTV Policy on request to staff, students, parents and visitors to the school. This policy describes the purpose and location of CCTV monitoring and guidelines for its use. Adequate signage will be placed at Castlebar ETNS to indicate that CCTV is in operation.

8. <u>Storage and Retention</u>

Section 2(1)(c)(iv) of the Data Protection Acts states that data "shall not be kept for longer than is necessary for" the purposes for which it was obtained. The CCTV security system installed by the DES at Castlebar ETNS, retains data for 8 days where the images identify an issue – such as a break-in or theft and those particular images/recordings are retained specifically in the context of an investigation/prosecution of that issue. Accordingly, the images captured by the CCTV system will be retained for a maximum of 3 months, except where the image identifies an issue and is retained specifically in the context of an investigation/prosecution of that issue.

The images/recordings will be stored in a secure environment with a log of access kept. Access will be restricted to authorised personnel. Supervising the access and maintenance of the CCTV System is the responsibility of the Principal. The Principal may delegate the administration of the CCTV System to another staff member. In certain circumstances, the recordings may also be viewed by other individuals in order to achieve the objectives set out above (such individuals may include the Gardaí, the Deputy Principal, other members of the teaching staff, representatives of the Department of Education and Skills, representatives of the HSE and/or the parent of a recorded student). When CCTV recordings are being viewed, access will be limited to authorised individuals on a need-to-know basis.

9. <u>Access</u>

The recorded footage and the monitoring equipment will be securely stored in a restricted area. Unauthorised access to that area will not be permitted at any time. The area will be locked when not occupied by authorised personnel. A log of access to tapes/images will be maintained.

Access to the CCTV system and stored images will be restricted to authorised personnel only i.e. Principal of Castlebar ETNS. In relevant circumstances, CCTV footage may be accessed:

- By An Garda Siochána where Castlebar ETNS are required by law to make a report regarding the commission of a suspected crime; or
- Following a request by An Garda Síochána when a crime or suspected crime has taken place and/or when it is suspected that illegal/anti-social behaviour is taking place on Castlebar NS property, or
- To the HSE and/or any other statutory body charged with child safeguarding; or
- To assist the Principal in establishing facts in cases of unacceptable student behaviour, in which case, the parents/guardians will be informed; or
- To data subjects (or their legal representatives), pursuant to an access request where the time, date and location of the recordings is furnished to Castlebar ETNS, or
- To individuals (or their legal representatives) subject to a court order.
- To the school insurance company where the insurance company requires same in order to pursue a claim for damage done to the insured property.

Requests by An Garda Siochána: Information obtained through video monitoring will only be released when authorised by the Principal following consultation with the Chairperson of the Board of Management. If An Garda Siochána request CCTV images for a specific investigation, An Garda Siochána may require a warrant and accordingly any such request made by An Garda Siochána should be made in writing and the school should immediately seek legal advice.

Access requests: On written request, any person whose image has been recorded has a right to be given a copy of the information recorded which relates to them, provided always that such an image/recording exists i.e. has not been deleted and provided also that an exemption/prohibition does not apply to the release. Where the image/recording identifies another individual, those images may only be released where they can be redacted/anonymised so that the other person is not identified or identifiable. To exercise their right of access, a data subject must make an application in writing to the school BOM. The school may charge up to $\in 6.35$ for responding to such a request and must respond within 40 days.

Access requests can be made to the following: BOM, Castlebar ETNS, Castlebar, Co. Mayo.

A person should provide all the necessary information to assist Castlebar ETNS in locating the CCTV recorded data, such as the date, time and location of the recording. If the image is of such poor quality as not to clearly identify an individual, that image may not be considered to be personal data and may not be handed over by the school.

In giving a person a copy of their data, the school may provide a still/series of still pictures, a tape or a disk with relevant images. However, other images of other individuals will be obscured before the data is released.

10. Responsibilities

The BOM in conjunction with the principal will:

- Ensure that the use of CCTV systems is implemented in accordance with the policy set down by Castlebar ETNS.
- Oversee and co-ordinate the use of CCTV monitoring for safety and security purposes within Castlebar ETNS.
- Ensure that all existing CCTV monitoring systems will be evaluated for compliance with this policy
- Ensure that the CCTV monitoring at Castlebar ETNS is consistent with the highest standards and protections
- Review camera locations and be responsible for the release of any information or recorded CCTV materials stored in compliance with this
 policy
- Maintain a record of access (e.g. an access log) to or the release of tapes or any material recorded or stored in the system
- Ensure that monitoring recorded tapes are not duplicated for release
- Ensure that the perimeter of view from fixed location cameras conforms to this policy

- Approve the location of temporary cameras to be used during special events that have particular security requirements and ensure their withdrawal following such events. NOTE: [Temporary cameras do not include mobile video equipment or hidden surveillance cameras used for authorised criminal investigations by An Garda Síochána].
- Give consideration to both students and staff feedback/complaints regarding possible invasion of privacy or confidentiality due to the location of a particular CCTV camera or associated equipment
- Ensure that all areas being monitored are not in breach of an enhanced expectation of the privacy of individuals within the school and be mindful that no such infringement is likely to take place
- Co-operate with the Health & Safety Officer of Castlebar ETNS in reporting on the CCTV system in operation in the school
- Ensure that external cameras are non-intrusive in terms of their positions and views of neighbouring residential housing and comply with the principle of "Reasonable Expectation of Privacy"
- Ensure that monitoring tapes are stored in a secure place with access by authorised personnel only
- Ensure that images recorded on tapes/DVDs/digital recordings are stored for a period not longer than <u>28 days</u> and are then erased unless required as part of a criminal investigation or court proceedings (criminal or civil) or other bona fide use as approved by the Chairperson of the Board
- Ensure that when a zoom facility on a camera is being used, there is a second person present with the operator of the camera to guarantee that there is no unwarranted invasion of privacy
- Ensure that camera control is solely to monitor suspicious behaviour, criminal damage etc. and not to monitor individual characteristics
- Ensure that camera control is not infringing an individual's reasonable expectation of privacy in public areas
- Ensure that where An Garda Síochána request to set up mobile video equipment for criminal investigations, legal advice has been obtained and such activities have the approval of the Chairperson of the BOM

11. Implementation and Review

The policy will be reviewed and evaluated from time to time. On-going review and evaluation will take cognisance of changing information or guidelines (e.g. from the Data Protection Commissioner, An Garda Síochána, Department of Education and Skills, Audit units (internal and external to the school), national management bodies, legislation and feedback from parents/guardians, students, staff and others.

Implementation of the policy will be monitored by the Principal of the school on behalf of the BOM.

12. Ratification and Communication

This data protection policy was ratified by the BOM in October 2016.

This policy adopted by Board of Management on

Signed:

Jarlath Munnelly (School Manager)

Compliance To Do List

No.	ltem
1.	Have we evaluated our current practices and procedures to ensure that they meet the demands of the Acts?
2.	Have we completed a risk assessment data protection audit using the Compliance Checklist? See Auditing through a Compliance Checklist
3.	Have we appointed an individual to oversee responsibility for data protection?
4.	Have we developed an internal data protection policy? See Data Protection Policy Template Note to ETB schools : the school's data protection policy shall be promulgated by the ETB and handed down to the school board of management to be ratified and adopted. In this way, all ETB schools in a ETB area will have consistent Data Protection Policies.
5.	Is a copy of the school/ETB Data Protection Policy sent to all parents/students at enrolment, at the beginning of each academic year and/or when the policy is updated as appropriate in the school/ETB?
6.	Have we developed and adopted a Personal Data Security Breach Code of Practice in case things go wrong? See Personal Data Security Breach Code of Practice Template
7.	Where we have third parties processing personal data for us (e.g. CCTV monitoring companies, external HR/payroll companies, cloud computing, off-site archiving etc.), do we have written data processing agreements/service level agreements in place? See Content of Service Agreements Does this data processing agreement/service level agreement incorporate our school/ETB Personal Data Security Breach Code of Practice?
8.	Awareness and Training: Are all staff aware and have they been properly on their data protection responsibilities? Are all members of staff aware of the school's/ETB's Data Protection Policy and the Personal Data Security Breach Code of Practice? Are refresher courses required?
9.	Are we aware of our security obligations and are we keeping our data safe? Do we have adequate security measures in place such as password protection and an adequate level of encryption? (Note encryption is essential on portable devices holding personal data such as laptops).
10.	Are all staff, parents and students aware of the Guidelines for Taking and Using Images of Children in our School/ETB?
11.	Have we developed and adopted a School/ETB Enrolment Data Protection Statement?
12.	Have we developed and adopted a Personal Data Rectification/Erasure Request Form?
13.	If our school/ETB has a website that collects data from visitors to the site, have we developed and adopted a Website Privacy Statement in consultation with our website designer/provider to ensure that they are correctly and fully disclosing all the information which our school/ETB website gathers and uses and asking for consent where we use cookies? See Website Privacy Statement Template
14.	If our school/ETB has or intends to have a CCTV system in place, have we carried out a Privacy Impact Assessment (see the appendix to the CCTV Policy Form) and have we developed and adopted (in consultation with all relevant parties) a CCTV Policy? See CCTV Policy
15.	Do we have a retention policy in place, and are all members of staff aware of and fully trained in relation to the Records Retention Schedule? See Records Retention Schedule

APPENDIX 1 - DEFINITIONS

Definitions of words/phrases used in relation to the protection of personal data and referred to in the text of the policy;

CCTV – Closed-circuit television is the use of video cameras to transmit a signal to a specific place on a limited set of monitors. The images may then be recorded on video tape or DVD or other digital recording mechanism.

The Data Protection Acts – The Data Protection Acts 1988 and 2003 confer rights on individuals as well as responsibilities on those persons handling, processing, managing and controlling personal data. All school/ETB staff must comply with the provisions of the Data Protection Acts when collecting and storing personal information. This applies to personal information relating both to employees of the organisation and individuals who interact with the organisation

Data - information in a form that can be processed. It includes automated or electronic data (any information on computer or information recorded with the intention of putting it on computer) and manual data (information that is recorded as part of a relevant filing system or with the intention that it should form part of a relevant filing system). **Personal Data** – Data relating to a living individual who is or can be identified either from the data or from the data in conjunction with other information that is in, or is likely to come into, the possession of the data controller.

Access Request – this is where a person makes a request to the organisation for the disclosure of their personal data under Section 3 and/or section 4 of the Data Protection Acts.

Data Processing - performing any operation or set of operations on data, including:

- Obtaining, recording or keeping the data,
- Collecting, organising, storing, altering or adapting the data,
- Retrieving, consulting or using the data,
- Disclosing the data by transmitting, disseminating or otherwise making it available,
- Aligning, combining, blocking, erasing or destroying the data.

Data Subject - an individual who is the subject of personal data.

Data Controller - a person who (either alone or with others) controls the contents and use of personal data.

Data Processor - a person who processes personal information on behalf of a data controller, but does not include an employee of a data controller who processes such data in the course of their employment, for example, this might mean an employee of an organisation to which the data controller out-sources work. The Data Protection Acts place responsibilities on such entities in relation to their processing of the data.
